

August 4, 2017

Mr. James P. Morris
Regional Environmental Manager
Aggregates East
Cemex
11430 Camp Mine Road
Brooksville, FL 34601

Dear Mr. Morris,

This letter is in regards to future mining operations that Cemex is planning to develop in 2019. Based on the facts as I understand, the extended mining operation that you are developing on the property directly North of Bayfront Health – Brooksville will not impact our daily operations. The vibration levels of 0.21 particle velocity are well below the maximum state vibration limit of 2.00. I also understand that we will be notified of all blasting prior to it transpiring.

Should you have any additional information on the project, I would like to be notified in a timely manner. Good luck with your endeavor.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kenneth R. Wicker".

Kenneth R. Wicker
Chief Executive Officer
Bayfront Health – Brooksville
