

Name: _____ Teacher: _____

Habitat Walk Field Observations

1. Write the name of the organism.
2. Check off when you find the food, water, shelter, and space the organism needs to survive.

Organism	Food	Water	Shelter	space
birds				
ants				
butterflies				

If you could shrink down to the size of shrew like Jackie did, and you were not limited to just land (if you could breathe under water) what habitat would you like to visit?

Why would you choose this habitat?
